Sample Questions and How to Approach Them

To give you a clearer picture, here are some sample questions you might encounter, along with tips on how to approach them:

Sample Question 1: Code Article Identification

Question: According to the NEC, which article covers grounding and bonding requirements?

- A) Article 210
- B) Article 250
- C) Article 300
- D) Article 430

Approach: Recall that grounding and bonding are primarily covered in Article 250. The correct answer is B) Article 250.

Sample Question 2: Load Calculation
